

# eVo | The Wiring Solution for Residential Build

# connections without compromise

## Fully Engineered

Following on from major success in the commercial and healthcare sectors, *Apex Wiring Solutions* have introduced *the complete electrical cabling solution* for all modern methods of construction used in today's continually evolving residential marketplace.

By combining top quality, professional system design, using the latest CAD and estimating tools and providing fully tested, quality controlled, pre-engineered components, *Apex Wiring Solutions* have developed the eVo range, the solution that will change the way the construction industry views electrical installation forever.

## Rapid, Flexible System

By overcoming a number of constraints within traditional electrical installation methods, *Apex Wiring Solutions* have eliminated onsite electrical connections and completely removing the need for noggins.

Using only a small number of pluggable components the eVo range provides a pre-engineered, safe and rapid installation straight from the box. The solution delivers a reduction of direct site labour, maximises efficiency, facilitates project management and accelerates programmes.

*Electrical installations have eVolved...*

*Flexibility pays off...*

## In Brief

- A **32 Amp Solution** providing the highest rated connector of it's type in the market place.
- **Factory tested assemblies** reduce snagging and onsite testing.
- Eradicate cabling errors using quick **pluggable, coded & lockable connections**.
- Peace of mind from **Quality Assured** products and services.
- **Environmentally friendly** ordering only what is required for the project, with **zero waste**
- **Rapid installation** allowing accessories to be fitted, fully working in one visit
- Flexible supply with individual project **kitting**
- With no onsite cable preparation a **safe, risk free installation** is achieved by reducing the need for blades and cutters.
- Numerous **cost benefits** including the removal of noggins, reduced onsite labour and improved programme.
- All connections are **fully accessible** without the provision of inspection hatches

## Accessory Range

Fast fix "Swinglock" technology  
 Eliminates wall noggins  
 Factory assembled & 100% tested  
 Suitable for any depth of wall cavity  
 Available with all standard wiring accessories  
 Available in White or Chrome as standard  
 Other finishes on request  
 Colour coded to aid installation  
 Mechanically coded to stop mis-mating

## Slave Pendant

Fast fix "Swinglock" technology  
 Eliminates ceiling noggins  
 Factory assembled & 100% tested  
 Suitable for any ceiling depth  
 3 and 4 wire configurations  
 Colour coded to aid installation  
 Mechanically coded to stop mis-mating

## Switch Unit

Factory moulded assembly  
 Suitable for 1 Way, 2 Way & Intermediate Switching  
 Easy to access through luminaire cut out  
 3 and 4 wire configurations  
 Colour coded to aid installation  
 Mechanically coded to stop mis-mating

## Consumer Unit

Factory assembled & 100% tested  
 Manufactured to customer specification  
 Fully pluggable outgoing ways  
 Concealed external fixing  
 Vanity panel to cover connections

## Extender Lead

19mm maximum diameter  
 Available in 1.5mm<sup>2</sup>, 2.5mm<sup>2</sup> and 4mm<sup>2</sup> cable  
 Factory assembled & 100% tested  
 3 and 4 wire configurations  
 Colour coded to aid installation  
 Available in standard 1m length increments  
 In PVC or Low smoke zero halogen as standard

## Branch Connector

Factory moulded unit  
 Allows splitting of circuit  
 3 and 4 Wire Configurations  
 Colour coded to aid installation  
 Mechanically coded to stop mis-mating

## Pre-wired Luminaires

Factory assembled & 100% tested  
 Shipped ex-stock for standard range  
 Downlighters available in White, Chrome, IP44, IP65, Low voltage or 240V  
 Colour coded to aid installation  
 Mechanically coded to stop mis-mating
